#### TWI Foods Inc

10/2014 - 01/2019,

Brampton, ON

Tasks

- Supervising entire plant for safe operation.
- Troubleshooting Electromechanical issues

## PERSONAL PROJECTS

### Face Detection Brain

- Project made using React where at the Sign In page the user signs in or registers with credentials and is directed to the Homepage. User can add a JPG photo link in the submission box and the App will detect the face in the photo. A count will increment at every detection of the face. Backend is built with ExpressJs and Database with PostgreSQL. The app is deployed through Heroku.
